

ADDENDUM 1
Schedule of Charges for Use of University Facilities
Academic and Administrative Space

Events sponsored by the university units funded through Educational and General (E&G) allocations are exempt from paying any charges for use of facilities identified in the Addenda, with the exception of Addendum 2.

The charges identified in this addendum must be prepaid five days prior to the first use of the facility; additional charges for extensive clean up or damage will be assessed when conditions so warrant.

The costs of additional support associated with the use of facilities other than those listed herein must be negotiated on an individual basis with the University Guest Services Office or, for the Florida State Conference Center, with the Center for Professional Development and Public Service.

An event produced or sponsored by non-university persons, groups and organizations which is co-sponsored by a university organization officially designated as an E&G organization, may be classified as a university-related person, group or organization event. Such requests must be made in writing to the University President or designee at least 30 days prior to the event and should contain appropriate justification and statement of benefit to the University. The sponsoring University E&G organization shall be financially responsible for the fees incurred by the non-university organization in the event of non-payment.
